

Updated office Policies in Response to COVID-19

Our team knows there are well founded concerns related to the spread of the Coronavirus. We are following CDC recommendations to keep our optometry office a safe and clean environment for you and your family while we continue to provide the highest level of eye care. If there are any immediate changes to our hours, we will notify all affected patients with current appointments scheduled.

Here is what we are currently doing to help prevent the spread of Coronavirus:

1. First hour of operation 12-1 will be designated towards those 65 & older, those who are immunocompromised, or pregnant.
2. Heightened cleaning protocol – each exam room cleaned in between patients and sanitizing shared surfaces.
3. All team members instructed to wash their hands frequently throughout the day and between encounters.
4. Sick team members will be directed to stay home.

Here's how you can help:

1. If you are sick or experiencing any flu-like symptoms, please stay home. We will gladly reschedule your appointment to when you are feeling better.
2. If you have traveled to a high-risk destination as defined by the CDC, or if you have had contact with an infected individual, we ask that you schedule your appointment following the recommended 14-day quarantine period.
3. Wash your hands frequently and prior to your eye exam.

As always, we appreciate your continual support as our patients. We are dedicated to serving you, your family, and our community.
